3. DICOM Viewer Integration
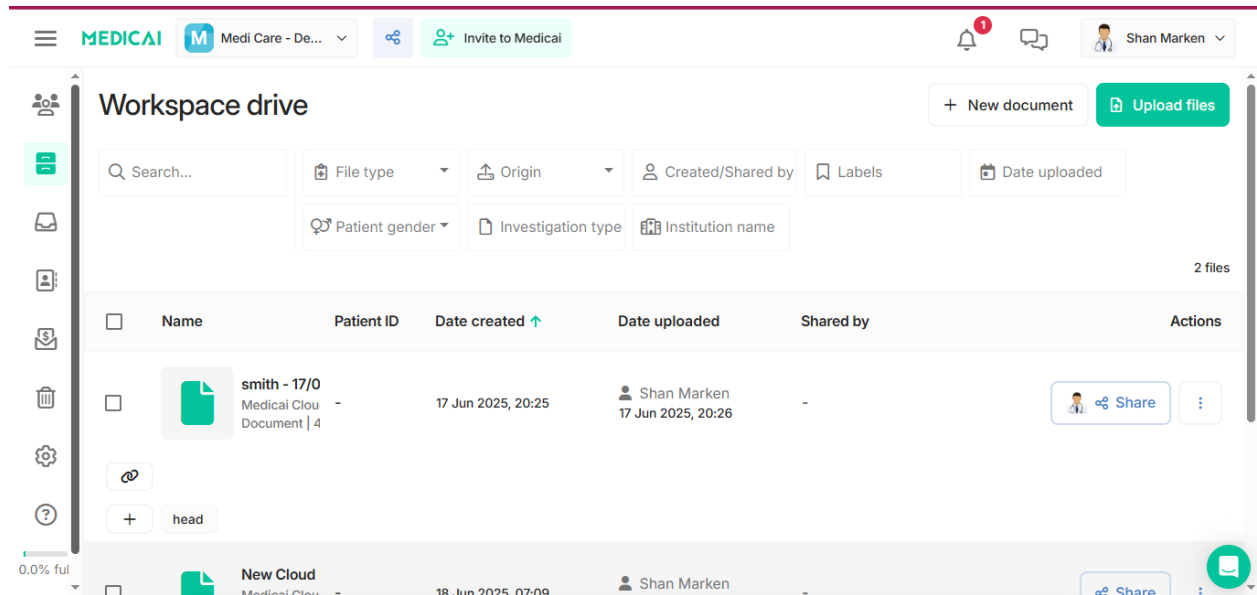

- Seamless link to the DICOM viewer

4. My workspace

All the pending, in review cases will be appeared here

Patient demographics (ID, name, age, sex)

Study details (modality, date/time, body part, reason for exam)

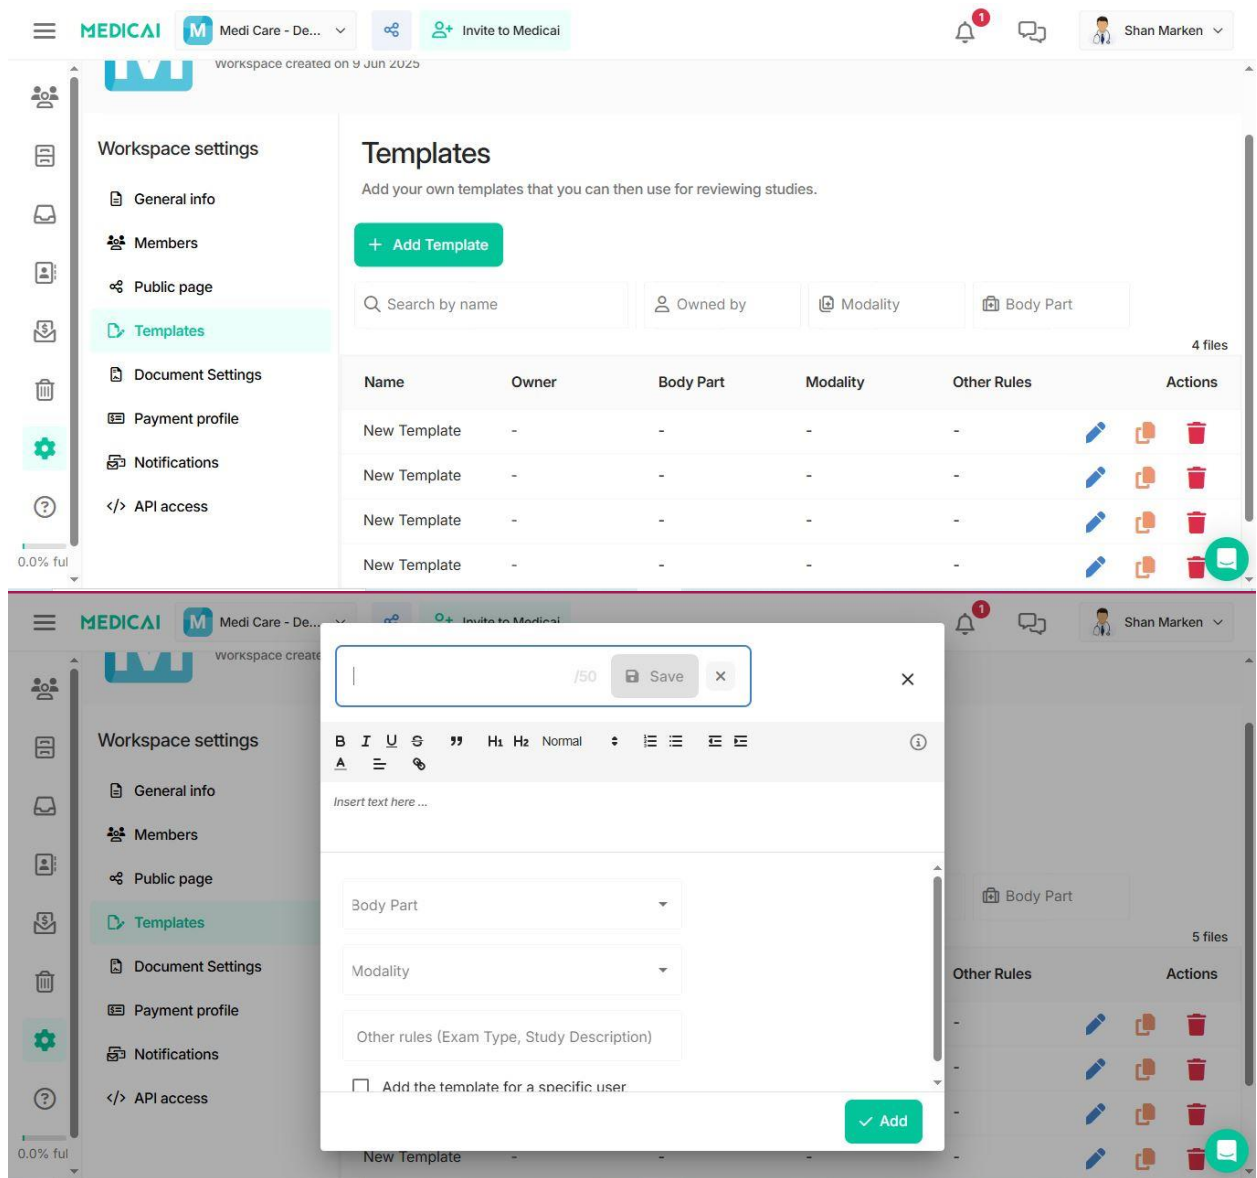

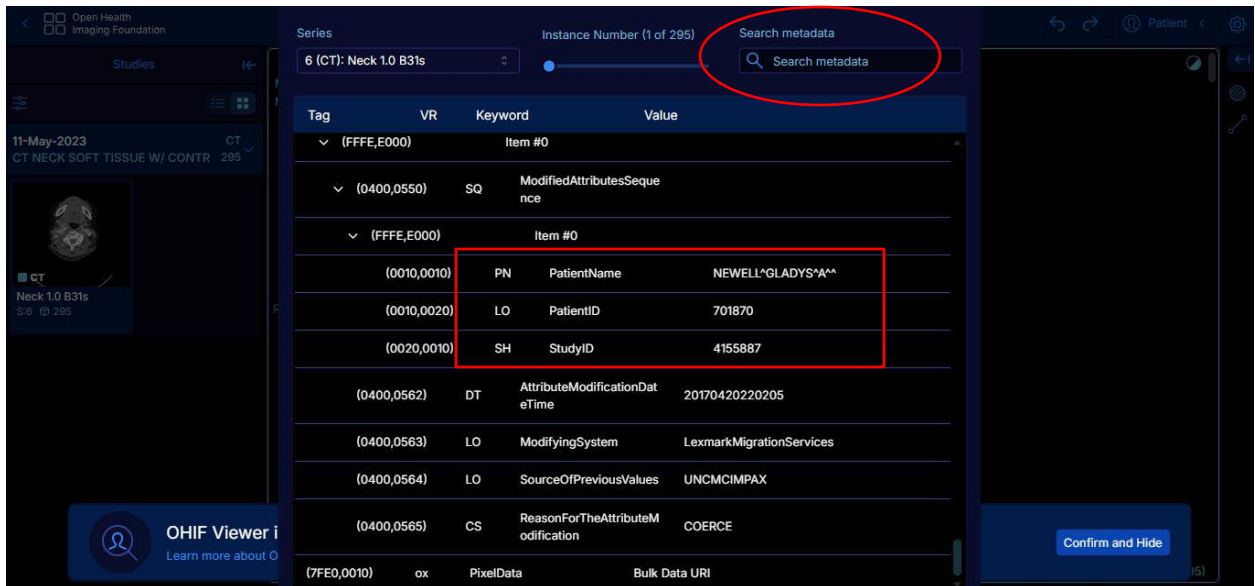

Reporting Module

- Structured and free-text reporting templates
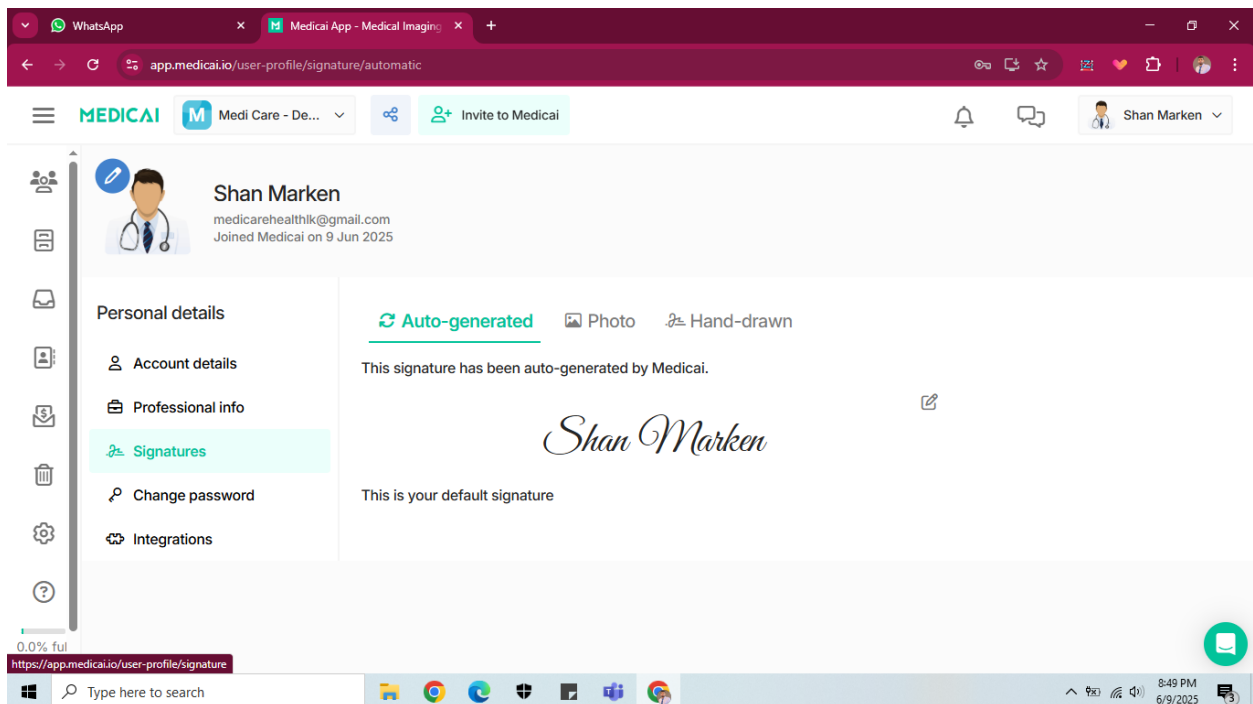

- Template management (create/save)

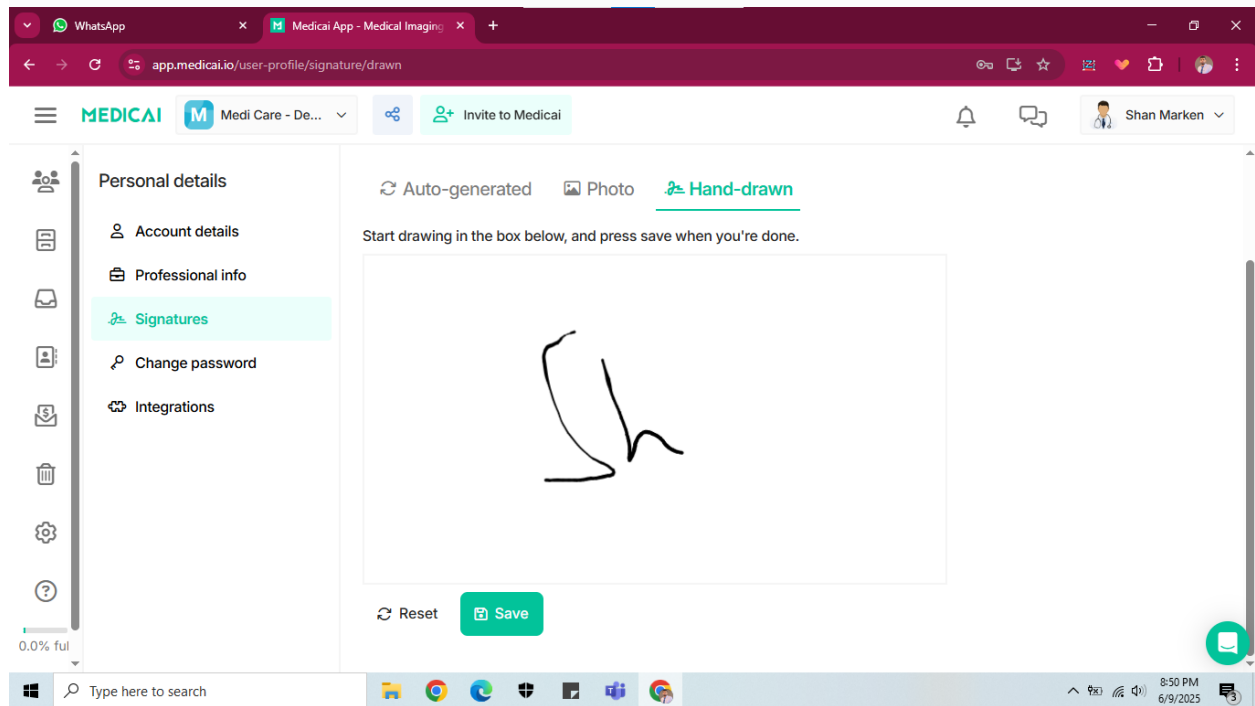

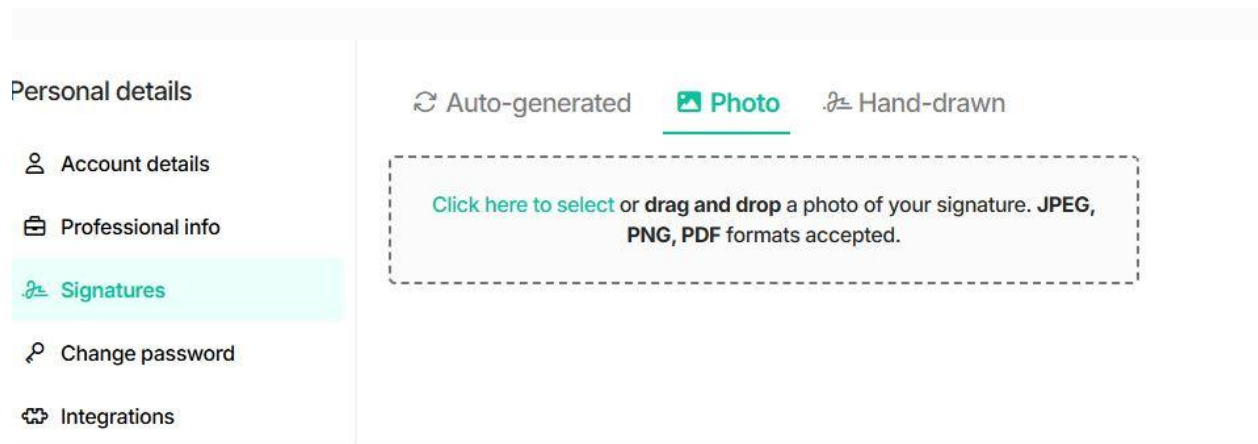

- **Insert key images into reports**
- Report auto-save and versioning
- Auto population of patient & study metadata

- Reporting Workflow

    o Draft / 2nd opinion / Finalize / Sign-off options
    o Second opinion request (Image & report sharing via secure link)
    o Internal notes/comments per case
    o Add signature
